****Phone:**** +919171992670

****Email:**** abhishek.patel2024@nst.rishihood.edu.in

****LinkedIn**** | ****Github**** | ****Leetcode**** | ****Personal Portfolio****

****PROFESSIONAL SUMMARY****

Highly skilled Software Engineer with experience building scalable, high-performance web applications using Next.js, Express.js, and Prisma ORM. Proven expertise in system design, architecture, and optimization, with a strong foundation in competitive programming and problem-solving.

****TECHNICAL SKILLS****

* ****Programming Languages****: Python, TypeScript, JavaScript

* ****Frameworks****: Next.js, Express.js, React.js

* ****Tools****: Postman, Figma, Prisma ORM, Tailwind CSS, PostgreSQL, Node.js, MySQL, MongoDB

* ****Database****: PostgreSQL, Prisma ORM

* ****Software Engineering****: System design, architecture, scalability, performance optimization, testing, and debugging

* ****Open Source Contributions****: Utilize GitHub to contribute to open-source projects and collaborate with other developers

****EXPERIENCE****

****Front-End Developer****, Countrees AI Remote (May 2025 - July 2025)

* Designed and developed the Inventory Management module of an ERP system using React.js and Figma

* Implemented optimized UI workflows and modular architecture to enhance scalability and performance

* Collaborated with a 6-member agile team to deliver a production-ready web application

****PROJECTS****

* ****Cally - Meeting Scheduler**** (Github) (Demo) (November 2025)

+ Built a customizable, high-performance scheduling system featuring personalized dashboards and shareable booking links

+ Utilized Next.js, Express.js, Prisma ORM, and PostgreSQL to deliver a cleaner, more structured full-stack system

+ Implemented server-side rendering and optimized routing to improve performance

* ****Haven - Dating App**** (Github) (Demo) (August 2025)

+ Created a university-only dating platform to bridge the gap in verified student matchmaking

+ Built using Next JS, Postgress SQL, Clerk Auth, Tailwind CSS, and Vercel

- + Resolved authentication flow complexities and database relationship handling to ensure secure user interactions

****EDUCATION****

- * **Bachelor of Technology (Artificial Intelligence)** (2024-2028)

- + Newton School of Technology, Rishihood University

- + Grade: 6.8/10.0

****ACHIEVEMENTS****

- * Reduced load time by 60% through optimized UI workflows and modular architecture

- * Improved scalability and performance in a 6-member agile team

- * Generated 17,000+ views on Instagram through marketing efforts for Haven - Dating App

****SKILLS****

- * **Problem-Solving**: Competitive programming (1450+ LeetCode, 900+ Codeforces)

- * **System Design**: Experience in designing scalable, high-performance web applications

- * **Testing**: Executed regression and edge-case testing using Postman and GitHub

****EXTRA-CURRICULAR ACTIVITIES****

- * **Freelance Developer and Creative Designer**: Collaborate in a 3-member team delivering end-to-end web development, graphic design, and video editing solutions for diverse client projects across multiple industries.
